

Travelling outside the province? Then, please read!

Our group insurance plan has **Allianz Global Assistance** as our Travel Assist provider.

We urge you to use the **Allianz Global Assistance** pre-trip service, **before you travel**, if you, or a member of your family have any prior medical condition as it is necessary to be deemed “stable to travel” by a consulting physician before travelling.

Some examples of **conditions where travel is not recommended** and where claims related to the condition may not be covered include:

- pregnancy within the 8 weeks prior to the expected due date,
- heart conditions where an acute attack has occurred,
- changes in the dosage of medication to control an acute condition such as diabetes,
- terminal illnesses where death is expected within 6 months

Please call **Allianz Global Assistance** at 1-800-321-9998 if you or a member of your family have any prior medical condition, or think that you may not be “stable to travel”.

If you have any questions about this pre-trip service, please give **PWI Insurance Services** a call at 1-800-265-2178, **before you travel!**
